Duration

2 days: 09:30 – 17:30 (17.00 finish day 2)

Who should attend?

This course is designed for Project Managers and their Team Members who are involved with PPP/PFI projects. It can be readily tailored for delivery to whole project teams.

Course summary

This highly practical and interactive course, based around a case study, focuses on the skills required to manage a successful PPP/PFI project. The case study is used over the 2-days and acts as a skills building tool to support behavioural and technical project management models and techniques. The course is facilitated by experienced PwC staff with training, project management and PPP/PFI experience.

Objectives for the course are to:

- Discuss the benefits of good PPP/PFI project management
- Build the skills required to manage PPP/PFI projects successfully
- Recognise the role and required contributions of the project team
- Apply appropriate technical and behavioural project management tools and techniques.

Business impact

- Stronger commitment to success from team members and stakeholders
- Tighter management of project leading to reduced project delays
- Improved return on project investment – value for money
- Skills development of the project team.

Accreditation

This course may be considered relevant for Continuing Professional Development accreditation. The maximum time attributable for this course is 12 hours.

Course fees

£895 + VAT per delegate

Ideally this event should be run as a project team event (minimum of 8 people). If there are several people in your team/organisation it may be more financially viable to consider a hosted event. Additional team building modules can be developed around the core 2 day event.
