

# Tysl – Next generation digital banking

We have developed Tysl, a platform designed to help deliver the future of digital banking. Based on the needs and expectations of tomorrow's customers, Tysl showcases a connected banking experience through an ecosystem of third-party FinTechs, making managing finances more personal.

## What is Tysl?

Tysl is a banking platform that is helping Retail, Commercial Banks and Building Societies transform their customer facing operations, enhance products and services to meet the speed and multi-channel expectations customer have.

Whether you're looking to launch a new product, improve your customer experience and automate end to end banking processes; Tysl provides everything you need to launch new capabilities, rapidly.

We've built Tysl as a highly modular platform that has been configured from an ecosystem of the latest modern cloud-native technology components. Combining the latest Fintech innovation with proven, scalable and resilient enterprise platforms.

### **We have already seen tangible benefits delivered through the Tysl platform**

- Reducing the decision time for an SME lender from 3+ weeks to just 20 minutes
- 80% of the Loan application process completed through digital straight through processes
- 50% Reduction in FTEs to process SME loan applications utilising a network of Fintech 3rd party providers

# Tysl is a full-service banking platform that will continue to extend its depth

## 1 Personal banking

Tysl demonstrates:

- Goal-oriented customer experience (e.g. from looking for a property to moving into the new home)
- Self service digital experience, paperless and straight-through processes

## 2 Business banking

Tysl demonstrates:

- Manage personal and business (SME) banking through single integrated platform
- Tailored products to help achieve customer's business goals

## 3 Commercial banking

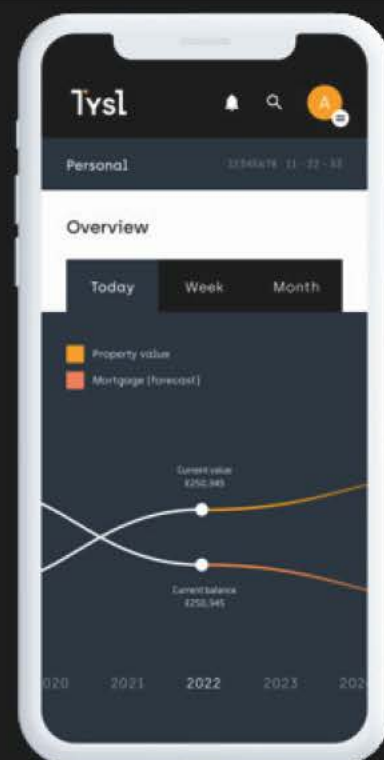

Tysl demonstrates:

- Self service onboarding (ID&V, KYB, products) and interaction
- Automated credit decisioning
- Account Integration
- Enables relationship managers to focus high-value customer interventions

## Tysl will illustrate how next generation digital banking can:

- Help clients reach new customers and grow top line revenue reducing opportunity costs and revenue leakage associated with a poor customer and lending experience
- Deliver automated onboarding & credit decisioning significantly reducing the costs of servicing the client
- Reduce technology TCO via faster time to market, reduced implementation costs with significant reduction in go forward BAU costs via a highly resilient and low run cost SaaS infrastructure
- Agile and rapid deployment approach based on configuration vs coding and 'easy' integration through out-of-box API's and open standards
- Provide seamless integration to third-party Fintech ecosystems and partners
