#### Why we've sent you this report

I'm writing to update you on the progress of the liquidation of the Company in the 12 months since our last report dated 6 September 2021.

You can still view our earlier reports on our website at www.pwc.co.uk/brantano.

#### Estimated outcome for creditors

The following table summarises the possible outcome for creditors, based on what we currently know.

Class of creditor	Paid to date (p in £)	Current future estimate (p in £)	Previous estimated (p in the £)
Secured creditor	100	N/A	N/A
Preferential creditors	100	N/A	N/A
Unsecured creditors	7.45	0 - 2	0 - 5

#### What you need to do

This report is for your information and you don't need to do anything.

# Overview of what we've done to date

This is our fifth progress report in the liquidation. You may wish to refer to our previous liquidation reports and progress reports from the administration which can be found at <a href="https://www.pwc.co.uk/brantano">www.pwc.co.uk/brantano</a>.

The Company was previously a national retailer of shoes. During the administration, a sale of part of the business including part of the store portfolio was achieved as a going concern. The majority of employees transferred to the Purchaser, mitigating preferential and unsecured employee claims, but redundancies were necessary at the closed stores. The claims of the Secured creditor and the Preferential creditors were met in full during the administration. The Company then entered CVL in order to finalise the realisation of its assets, disclaim the remaining leasehold properties, agree unsecured claims and pay dividends to the unsecured creditors.

Most of these matters were completed in the first year of the liquidation, including payment of a first dividend to unsecured creditors of 7.45p in the  $\pounds$ . We have remained in office to pursue a claim in respect of credit card interchange overcharges which could be a material realisation for creditors. Any net realisation from the claim after costs would be available for distribution to the Unsecured creditors.

### Outcome for creditors

#### Secured creditors

As explained in our previous reports, the Lender held fixed and floating charges over all of the Company's assets and was repaid in full from realisations achieved during the administration.

#### Preferential creditors (mainly employees)

The sale of the majority of the Company's business and assets ensured the transfer of 1,372 employees' jobs to the Purchaser under TUPE. Therefore no preferential claims arose in respect of these employees. The employees of the 57 stores and one concession store that were not included as part of the sale of the business and assets were made redundant. The preferential claims that resulted were paid in full via payroll during the course of trading during the administration.

#### Unsecured creditors

Dividends become available for Unsecured creditors when there are sufficient funds (after costs of the liquidation) to pay the Secured and Preferential creditors in full, with an amount left over. In certain circumstances, part of the amount available for Secured creditors may be ring-fenced for the benefit of Unsecured creditors. This Prescribed Part is paid out of 'net property', which is floating charge realisations after costs, and after paying – or setting aside enough to pay – Preferential creditors in full. But it only has to be made available where the floating charge was created on or after 15 September 2003.

The Prescribed Part applied to the Company as the charges were created and registered at the Companies House subsequent to the order coming into force on 15 September 20003. The maximum Prescribed Part was available of £600,000 and the Company's net property was over £3,000,000.

As both the Secured and Preferential creditors were paid in full, funds over and above the maximum Prescribed Part were available to be distributed to the Unsecured creditors. On 15 December 2017, a first unsecured dividend was declared at 7.45p in the £, and funds of £1,459,646.70 were distributed.

We remain in the office awaiting the outcome of ongoing litigation that could result in a further distribution. The quantum and timing of any realisations is unknown. But, based on what we currently know, we still estimate that a distribution of up to 2p in the £ is a possibility. Further information regarding our work in relation to the ongoing litigation can be found in the next section of this report.

# Progress since we last reported

#### Potential credit card claim

The Company is party to ongoing litigation in relation to overcharging for credit card merchant services and is one of a number of claimants in this litigation. We expect that this asset has a realisable value, but the timing and quantum of a settlement is still uncertain because the outcome is dependent on a number of ongoing cases that are complex in nature and therefore causing delay. We continue to liaise with our legal representatives in respect of the claim to ensure there remains to be value for creditors in remaining in office to realise the claim however we are unable to share these details due to the nature of the claim. The costs of our legal representatives are being funded by a third party who will only receive payment should a recovery be achieved.

#### Change of Liquidators

Toby Scott Underwood, one of the previous Joint Liquidators, has retired from the Firm. To make sure that outstanding issues in the liquidation continue to be pursued, an application was made to Court to remove him and appoint David James Kelly as Liquidator. David James Kelly is licensed in the United Kingdom to act as an insolvency practitioner by the Institute of Chartered Accountants in England and Wales.

The application was granted and so David James Kelly replaced Toby Scott Underwood as Liquidator with effect from 30 November 2021. The Court ordered that the costs of the application be borne by PwC. Toby Scott Underwood was released from all liability in respect of his conduct as Liquidator 28 days after the date of advertisement on this order in the London Gazette. Creditors had 28 days following publication of this notice to apply to Court to vary or discharge the Court order. No creditor sought to vary or set aside all or any terms of this order in the given period.

#### Statutory and compliance

We have complied with all statutory duties as Liquidators within the last year, including the preparation and filing of the fourth annual progress report with the Registrar of Companies.

#### Investigations and actions

Nothing has come to our attention during the period under review to suggest that we need to do any more work in line with our duties under the Company Directors' Disqualification Act 1986 and Statement of Insolvency Practice 2.

#### Our receipt and payments account

We set out in Appendix A an account of our receipts and payments in the Liquidation from 13 July 2021 to 12 July 2022. We also set out the receipts and payments in the earlier periods of the liquidation and the administration.

During the period of this report there have been no further realisations, and the only payments that have been made are £88.32 in respect of VAT on legal fees.

#### Our expenses

We set out in Appendix B a statement of the expenses we've incurred to the date covered by this report and an estimate of our future expenses.

#### Our fees

We set out in Appendix C an update on our fees, disbursements and other related matters.

#### Creditors' rights

Creditors have the right to ask for more information within 21 days of receiving this report as set out in Rule 18.9

IR16. Any request must be in writing. Creditors can also challenge our fees and expenses within eight weeks of receiving this report as set out in Rule 18.34 IR16. This information can also be found in the guide to fees at:

https://www.icaew.com/-/media/corporate/files/technical/insolvency/creditors-guides/2017/liquidations-creditor-fee-guide-6-april-2017.ashx?la=en

You can also get a free of charge copy by telephoning Madeline Finkill on 0113 289 4075.

#### Next report

We expect to send our next report to creditors at the end of the liquidation or in about 12 months, whichever is sooner.

If you have any questions, please get in touch with Madeline Finkill on 0113 289 4075.

Yours faithfully

David Kelly Joint Liquidator

#### Notes to the R&P

- 1. Amounts shown exclude VAT. Funds currently held may include monies due to or from HMRC.
- 2. The directors' statement of affairs included a duplicate amount of £30,000 in respect of cash floats on appointment.
- 3. As explained in appendix C, our fees are based on time costs. The receipts and payments account shows the amounts paid in the period and to date for the liquidators' fees. There have been no payments made to us, our firm, or our associates other than from the insolvent estate as shown in the receipts and payments account above.

# Appendix B: Expenses

Expenses are amounts properly payable by us as Liquidators from the estate, but excludes our fees and distributions to creditors. These include disbursements which are expenses met by and reimbursed to an office holder in connection with an insolvency appointment.

Category	SIP9 definition
Category 1	Payments to persons providing the service to which the expense relates who are not an associate of the office holder.
Category 2	Payments to our Firm or our associates or which have an element of shared costs (for example, photocopying and mileage disbursements, or costs shared between different insolvent estates).

We don't need approval from creditors to draw Category 1 expenses as these have all been provided by third parties but we do need approval to draw Category 2 expenses. The body of creditors who approve our fees (in this case the general body of creditors) also has the responsibility for agreeing the policies for payment of Category 2 expenses. During the period of this report, no category 2 expenses were incurred. The following table shows the disbursements incurred in the period.

Category	Cost incurred by	Policy:	Costs incurred (£)
1	PwC	Bonding	10.00
Brought for	vard as at 12 July 2021		5,219.23
Total incurre	ed to 12 July 2022		5,229.23

The following table provides details of our expenses. Expenses are amounts properly payable by us as Liquidators from the estate and includes our fees, but excludes disbursements to creditors. The table also excludes any potential tax liabilities that we may need to pay as a liquidation expense because amounts becoming due will depend on the position at the end of the tax accounting period.

The table should be read in conjunction with the receipt and payment account at Appendix A, which show expenses actually paid during the period and the total paid to date.

#### Notes

- 1. The Liquidators' fees have been updated to reflect incurred costs after the agreed discount of 15%. The anticipated total Liquidators' fees does not necessarily reflect the level that we may ultimately draw.
- 2. The brought forward legal and property agents costs has been updated to include costs incurred during the preceding administration. Our lawyers that are instructed to advise us in relation to the ongoing litigation are working on a "no win no fee basis" and therefore while their costs are being incurred currently, their fees will only be deducted from realisations following a settlement of the litigation.

## Appendix C: Remuneration update

During the administration, creditors fixed the basis of the Administrators' fees by reference to time properly given by the Administrators and their staff in dealing with the administration. The fee basis agreed in the administration continues to apply in the liquidation. During the administration, we prepared a Remuneration Report and a total of £40,362 (before the agreed discount of 15%) was not utilised during the administration and therefore was carried forward into the liquidation. We circulated a Remuneration Report for the liquidation on 13 November 2017 with a fees estimate of £148,937 (before the agreed discount of 15%) which was agreed by the Unsecured creditors on 1 December 2017.

The time cost charges incurred in the period covered by this report are £23,846.00 bringing total time costs during the liquidation up to 13 July 2022 to £264,951.97 before the agreed discount of 15%. Our time costs have exceeded our estimate of £189,299 being the amount carried forward from the administration and approved by the Unsecured creditors as fee approving body on 1 December 2017. This is mainly due to the fees estimate being prepared on the basis that the liquidation would last up to 1 year (i.e until July 2018). However, as explained earlier in this report, we believe there is benefit to creditors in keeping the Company in liquidation to realise any value in the ongoing litigation and therefore we may seek further fee approval should funds become available.

We set out later in this Appendix details of our work to date, anticipated future work, expenses, subcontracted work and payments to associates.

#### Our time charging policy and hourly rates

We and our team charge our time for the work we need to do in the liquidation. We delegate tasks to suitable grades of staff, taking into account their experience and any specialist knowledge that is needed and we supervise them properly to maximise the cost effectiveness of the work done. Anything complex or important matters of exceptional responsibility are handled by our senior staff or us.

All of our staff who work on the liquidation (including our cashiers, support and secretarial staff) charge time directly to the case and are included in any analysis of time charged. Each grade of staff has an hourly charge out rate which is reviewed from time to time. For the avoidance of doubt, work carried out by our cashiers, support and secretarial staff is charged on a time costs basis and is included in the analysis of hourly rates charged by partners or other staff members. Time is charged in three minute units (i.e. 0.05 units). We don't charge general or overhead costs.

We set out below the maximum charge-out rates per hour for the grades of our staff who already or who are likely to work on the liquidation.

Grade	Up to 30 June 2022 £	From 1 July 2022 £
Partner	980	980
Appointment taking director	740	960
Director	740	915
Assistant director	625	900
Senior Manager	625	860
Manager	525	730
Senior Associate	425	515
Associate	280	375
Support staff	130	160
Offshore professional	280 - 425	375 - 515

Reflecting the increasingly mobile and flexible nature of the PwC workforce and the narrowing of our London and regional cost bases we have moved to one uniform rate card for our standard restructuring and insolvency services from 1 July 2022. This is in line with other parts of PwC, and is also consistent with wider insolvency market practice. We will continue to have a separate rate card for specialist services including our tax, data and technologist support.

Should an increase in charge out rates result in our time costs exceeding the fee estimate provided to creditors at the time we sought approval of the basis of our remuneration, we will need to seek approval from the relevant creditor body in order to draw fees in excess of that estimate.

We have a diverse range of experience and capability within our director and senior manager teams. We have created two further grades within this population to reflect different levels of experience. We have differentiated between those directors who take insolvency appointments and lead insolvency cases (thereby providing considerable leverage to our appointment taking partners and reducing overall costs to insolvent estates), and those directors who help to support the delivery of our insolvency strategy. We have also created differential rates in our senior manager team, acknowledging those insolvency qualified and long serving insolvency experienced senior managers separately from those who are not yet insolvency qualified.

Role descriptions applicable to the new rates are below. In addition, as the range of work that may be undertaken by our offshore professional colleagues increases, we also provide updated information for that role.

Title	Description
Appointment taking director	A licensed insolvency practitioner acting as an office holder on the insolvency appointment and subject to additional office-holder responsibilities compared to a Director who is not an appointed office-holder. Highly experienced in insolvency matters at a senior level, including managing complex insolvencies and supervising teams.

Assistant director	Individuals of Senior Manager title but who are highly experienced in insolvency matters and either with more than 10 years insolvency experience at Senior Manager level or are qualified to JIEB level.
Offshore Professional	Offshore professional colleagues may provide assistance, albeit that the majority of the work on this case will be undertaken by the UK based team. An off-shore professional at the higher end of the fee bracket generally has appropriate insolvency experience or an accounting qualification, depending on the nature of the work and will assist with planning and control of various aspects of the insolvency. An off-shore professional at the lower end of the fee bracket will typically have a finance-related qualification and appropriate skills to complete basic insolvency related tasks and provide administrative support to the team including efficient document preparation and data entry, records management, and general data analytics. All work under the supervision of more senior staff.

We call on colleagues such as those in our Tax, VAT, Real Estate and Pensions departments where we need their expert advice. We may also utilise Technology Specialists from the wider Business Restructuring Services team or other parts of our firm. Their specialist charge-out rates vary but the following are the maximum rates by grade per hour.

Grade	From 1 July 2021 £	From 1 April 2022 £
Partner	1,680	1,810
Director	1,540	1,660
Senior Manager	1,425	1,570
Manager	860	950
Senior Associate	640	690
Associate	345	375
Support staff	230	205

In common with many professional firms, our scale rates may rise to cover annual inflationary cost increases.

#### Payments to associates

No payments have been made to associates or any party who could reasonably be perceived as an associate during the period of this report. Relevant parties have been chosen due to their specific area of expertise or technical knowledge and payments to those parties based on standard commercial terms.

#### Our work in the period

Earlier in this section we have included an analysis of the time spent by the various grades of staff. Whilst this is not an exhaustive list, in the following table we provide more detail on the key areas of work:

#### Our future work

estimate

Review of time costs against fees

We still need to do the following work in the liquidation. Please note this estimate does not include the costs of distributing a final dividend given the uncertainty regarding the timing of such dividend.

#### Our relationships

We have no business or personal relationships with the parties who approve our fees or who provide services to the liquidation where the relationship could give rise to a conflict of interest.

#### Details of subcontracted work

No work which our staff would normally do have been subcontracted during the period of this report and we do not anticipate such requirements in the future.
