

# Supporting your people through Brexit

The ongoing uncertainty around Brexit means that many individuals are unsure what actions they need to take in order to secure their status in the UK.

Although the government has made considerable efforts to publicise the EU Settlement Scheme, a significant proportion of the estimated number of impacted individuals have still not yet submitted an application, and many people are unsure what status they may be entitled to and what they and their family are required to do.

Reassurance remains key, particularly in times of uncertainty raising concerns.

To help organisations we have developed a range of packages to suit your structure and people.
