

A postcard from PwC...

Name: Ella Bailey

Job Title: Manager, Prudential Risk and Regulation

Where I work: Risk Assurance, London Bridge

I studied **A Level English Literature** at School

How I use **English** in my work now

- I use English to draft reports to banking clients where I provide recommendations on how to improve their procedures and processes.
- I use English to correct the spelling, punctuation and grammar of my own work and others in my team when we are corresponding with clients.
- I use English to correspond with work colleagues via email or messages.

My highlight of my job so far

- My proudest moment has been that a number of Internal Capital Adequacy Assessment Process (ICAAP) documents that I have written for clients have had feedback from the UK regulator that the standard of work has been market leading and far surpassed their expectations.
- I have just been nominated for an award in recognition of the Diversity and Inclusion initiatives and events I plan on behalf of PwC. It was great to go to an awards ceremony and be recognised for the additional work I do around the firm.

If I went back in time what piece of advice would I give my 17 year old self?

If I could go back in time, I would advise my 17 year old self to aim high and think big. Go for what you want. When I was younger I never imagined I would be a Manager at the top consultancy firm in the country. It was all possible, I just needed to believe in myself.
