

# A postcard from PwC...

**Name:** Mahmoda Khatun

**Job Title:** Senior Associate in Audit

**Where I work:** Audit, Reading office

I studied **A Level Maths** at School

How I use **Maths** in my work now:

- I use Maths when using excel to create formulas for audit testing
- I use Maths to keep a track of deadlines and ensure my work is being performed in line with the client budget.

**My highlight of my job so far**

- My proudest moment is when I opened up to my colleagues through a work campaign focused on social mobility regarding my background and route into PwC
- I was surprised of the various activities I can get involved with at PwC (varying from sport, social and volunteering activities)

**If I went back in time what piece of advice would I give my 17 year old self?**

*To not worry too much about the future and about doing things wrong – as you can always learn from mistakes and that's what helps you improve on yourself.*
