

# A postcard from PwC...

I studied **A Level Maths** at School

How I use **Maths** in my work now:

- I use skills learned from my Maths A Level to help model cost analysis for Pension Administrators and systems providers.

**My highlight of my job so far**

- *Since joining the firm I have enjoyed taking part in the wider PwC world, starting to volunteer for the Samaritans, working as a Global Mobility Champion and joining the One Young World Committee.*
- *I was surprised by how much trust I was given so quickly to participate in projects, meet clients and impact on deliverables.*

**If I went back in time what piece of advice would I give my 17 year old self?**

*It was not too long ago but I have definitely learned some things whilst at University and beyond. One piece of advice would be to keep at something you truly enjoy and invest in your happiness.*

**Name:** Molly McCarthy

**Job Title:** Associate in Pensions

Management Consulting Team.

**Where I work:** I am based in the FS and Deals Pensions Team in London.
