

# A postcard from PwC...

**Name:** Alice Brown

**Job Title:** Proposals Coach / Manager,  
Sales and Marketing

**Where I work:** London

I studied **A Level Biology**  
at School

How I use **Science** in my  
work now:

- My role isn't directly related to science, but studying a science allows me to bring an analytical mindset to my way of working. I help to ensure teams I work with are compliant and are consistent with our messaging against what the client is looking for.

**My highlight of my job so far**

- Supporting a variety of teams in building relationships with all sorts of clients and exceed expectations.
- Working with such passionate, motivated and caring individuals. Everyone at PwC looks out for each other!

**If I went back in time what piece of advice would I give my 17 year old self?**

*Don't go for subjects you think would 'look good on paper'; go for subjects you're genuinely interested in and want to learn more about. It's a lot easier to do well this way!*
