

# A postcard from PwC...

I studied **GCSE English** at School

How I use **English** in my work now:

- I use my English Language and Literature skills to prepare reports and set out my advice to clients. This information needs to be clear and concise and of a professional nature.
- Spellcheck and a Thesaurus can only do so much!

**My highlight of my job so far**

- My team - I work with a strong team where there is a lot of trust, a lot of support and a lot of laughs.
- It is not just a desk job - I have a lot of client interaction and have many opportunities to go visit clients and see what their offices are like.
- Escape rooms, indoor golf, movie night, afternoon tea...so many benefits of working with a great company.

**If I went back in time what piece of advice would I give my 14 year old self?**

*Do not assume there is just one path for you and that you are limited by your background, the way you speak, the people around you or any other factor you think stops you breaking those barriers. It is a changing world and more than ever it is about what you can personally bring to a company or team and not just grades.*
