

A postcard from PwC...

Name: Ahsan Ali

Job Title: Assurance Senior Associate

I help to review financial statements

Where I work: London Audit Team, In
London

I studied **GCSE Maths** at
School

**How I use Maths in my
work now:**

- To help me review financial statements and the underlying data that make up the total figures on the statements.
- To help me interpret and analyse financial figures and information.
- To measure performance and identify trends that affect the clients/ companies.

My highlight of my job so far

- Through work I get the opportunity to meet lots of really interesting and intelligent people which means that I am constantly learning and growing.
- I managed to get a couple of trips abroad and I was able to visit Paris, Texas and Ohio. It was great to see how people's working habits differ compared to London, and I go free trip!
- Being part of PwC means I can get involved in programmes designed to help me contribute to my community y getting involved in lots of school/ volunteering initiatives.

**If I went back in time what piece of advice
would I give my 14 year old self**

Take some time to think about what you enjoy learning about/ doing and base your future goals around that. And appreciate being 14 and being around your friends but also try to be a positive influence on people around you.
